

Abhishek MJ abhiaradhya89042@gmail.com ❖ 8904200564 ❖ [LinkedIn](#) ❖ [Github](#)

summary

Software Engineering student with strong foundations in Data Structures and Algorithms and experience building scalable backend systems using Python and RESTful APIs. Passionate about solving complex engineering problems and writing efficient, reliable code.

WORK EXPERIENCE

Soomuch Smart Solutions Pvt. Ltd

Aug 2025 – Oct2025

Backend Developer

- Designed and optimized **FastAPI-based REST APIs**, improving query performance by **20%**
- Debugged and resolved **30+ backend issues**, reducing downtime and ensuring smooth deployments.

Netpy Technologies

Full stack Developer Intern

Oct 2025 – present

- Participated in full SDLC including design, development, testing and deployment
- Improved API performance by 20% through query optimization
- Collaborated with frontend developers to integrate REST APIs
- Used Git for version control and CI/CD for automated deployment

SKILLS

- **Languages:** Python, JavaScript (ES6+), TypeScript
- **Backend:** FastAPI, Django, Flask (basic), RESTful Web APIs
- **Frontend:** React.js, TypeScript, CSS, JSON
- **Databases:** PostgreSQL, MongoDB (basic)
- **DevOps & Tools:** Docker, Jenkins, Git, CI/CD, Dokploy
- **Concepts:** SDLC, Agile-Scrum, n-Tier Architecture, OOP, Unit Testing

Core Computer Science:

- **Data Structures:** Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Hash Tables
- **Algorithms:** Sorting, Searching, Recursion, Dynamic Programming, BFS/DFS
- **OOP, DBMS, OS Basics**
- **Solved 250+ problems on LeetCode / CodeStudio**

PROJECTS & EDUCATION

Real Estate Investment Group CRM (REIGC) – Enterprise SaaS Platform

- Designed and implemented n-tier architecture separating presentation, business logic, and data layers
- Developed RESTful Web APIs with structured validation and standardized JSON responses
- Integrated PostgreSQL with optimized indexing strategies for performance
- Wrote unit tests for backend APIs to ensure reliability and maintainability
- Dockerized application for consistent deployment across environments

Job Portal – Full-Stack SDLC Implementation

<https://github.com/whyabhisheek/frontend>

- Built a full-stack job portal covering all SDLC phases from planning to deployment
- Designed REST APIs and responsive React (TypeScript) UI with form validation and resume upload
- Automated CI/CD pipelines using Jenkins and Docker
- Followed modular design principles for scalable development

SmartDental AI Receptionist – Voice AI Booking System

<https://smart-dental-reception.lovable.app/>

- Designed backend workflows using Python and API integrations
- Integrated AI models for intelligent response generation
- Automated appointment scheduling using Google APIs

S.E.A - College of Engineering & Technology

Bachelor of Artificial Intelligence and Machine Learning

Bangalore, IN

- **CGPA:** 7.8

Certifications

- **FastAPI – The Complete Course** – Udemy
- **Git & GitHub Bootcamp** – Udemy
